1.0 GENERAL INFORMATION

1.1 Description of TSTC

Texas State Technical College (“TSTC”) a state-supported two-year technical college and is the state’s largest provider of technical education. TSTC was originally established in 1965 as the James Connally Technical Institute (JCTI), a two year college in the Texas A&M University System designed to meet the state’s evolving workforce needs. In 1969, the State of Texas gained ownership of James Connally Air Force Base and renamed the college Texas State Technical Institute (TSTI), which became a separate state agency with its own Board of Regents, appointed by the governor. TSTC been continuously accredited by equivalent enrollment of approximately 12,000. In contrast with Texas’s regionally-focused community colleges, TSTC has a statewide role and mission with a legislative mandate to focus specifically on highly specialized, advanced, and emerging technical and vocational areas leading to certificates or associate degrees.

In 2015, the college was granted single-accreditation status from the Southern Association of Colleges and Schools Commission on Colleges, the regional body for the accreditation of degree-granting higher education institutions in the Southern states. The college central administration is located in Waco, Texas, the site of the flagship campus. The college has campuses in Abilene, Breckenridge, Brownwood, Fort Bend County, Harlingen, Marshall, North Texas (Red Oak), Sweetwater, Waco, and Williamson County.

1.7 Proposal Evaluation Process

TSTC may select the Proposal that offers the “best value” for the institution based on the published selection criteria and on its ranking evaluation. The top ranked respondents may be selected by the Owner to participate in the interview process. The interviews may be conducted in person or through the use of technology.

TSTC may first attempt to negotiate a contract with the selected respondent. TSTC may discuss with the selected respondent options for a scope or time modification and any price change associated with the modification. If TSTC is unable to reach a contract with the selected respondent, TSTC may formally end negotiations with that respondent and proceed to the next “best value” respondent in the order of the selection ranking until a contract is reached or all Proposals are rejected. TSTC is not obligated to select the Respondent offering the most attractive economic terms if that Respondent is not the most advantageous to TSTC overall, as determined by TSTC.

1.8 Historically Underutilized Businesses Submittal Requirements

It is the policy of TSTC to promote full and equal opportunities for the contracting and subcontracting of Historically Underutilized Businesses (HUB) in accordance with Texas Government Code, Chapter 2161. The Respondent shall perform the Contract with its own resources and those subcontractors identified in the Respondent’s HUB Subcontracting Plan. In the event that the Respondent should determine that it is necessary or expedient to execute additional or alternative subcontracts for any of the performances under the Contract, the Respondent shall submit a revised HUB Subcontracting Plan for prior approval before executing any subcontracts.

In any subcontracts entered into by Contractor for the performance of the work, Contractor shall require the Subcontractor, to the extent of the work to be performed by the Subcontractor, to be bound to Contractor by the terms of the contract between Contractor and TSTC and to assume toward

Contractor all of the obligations and responsibilities that Contractor, by the contract between Contractor and TSTC, assumes toward TSTC.

The Respondent shall manage all quality and performance, project management, and schedules for subcontractors. The Respondent shall be held solely responsible and accountable for the completion of all work for which the Respondent has subcontracted.

1.10 Bidding Requirements

1.17 Contract Award, Initial Term, and Renewal Options

A response to the solicitation is an offer to contract with Texas State Technical College based on the terms and conditions contained therein. RFP's do not become contracts and are not binding until a written contract, signed by authorized College administrator and authorized personnel of the awarded vendor pursuant to this agreement are formed.

The initial contract performance period shall be for a period of one year (starting on or about October 1, 2017 through August 31, 2018), unless otherwise extended or terminated by TSTC in accordance with the terms and conditions of the contract. The Contractor must be agreeable to renewal under the conditions of this document. All contract renewals or extensions may be subject to approval by authorized personnel of TSTC. Contract renewals or extensions may be made ONLY by written agreement between the College and the Proposer and are subject to approval by authorized personnel of TSTC. TSTC shall reserve the right to award a contract for all or any of the requirements in this Request for Proposals, to award multiple awards, or to not award any contract, according to what is in the best interest of TSTC.

The RFP and submitted responsive documents, or portions of each, and at the College's sole discretion, may become incorporated by reference and a part of this written contract and will be binding on both the College and the Proposer after execution of the contract by both parties.

1.18 Compliance with Laws

The services provided and all representations in the RFP response must be such that they are or would be in conformity with all federal, state, county and local laws, regulations, rules, and orders. Upon request, the Proposer shall furnish to TSTC certificates of compliance with all such laws.

1.19 Termination for Convenience

TSTC, may, at its option and discretion, terminate the resulting contract for convenience and, at its option and discretion, may reduce the statement of work or other requirements of the contract at any time, without any default on the part of TSTC or the contractor, by giving thirty (30) calendar days' notice thereof to the selected contractor.

1.20 Termination for Default

In the event that the services to be performed under this contract must be completed by a certain date, the Proposer is required to provide immediate notice at such time it has knowledge that it will be unable to perform the services within the time required.

1.21 Assignment

The Proposer may not assign, transfer, convey, or subcontract this contract, any services to be performed as outlined in the RFP, or any of its obligations under this contract, in whole or in part, without the prior written approval from the College, which the College may withhold in its sole discretion.

1.22 Ethics Conduct

Any direct, or indirect, actions taken to unduly influence competitive purposes, to circumvent equal consideration for competitive bidders, or to disregard ethical and legal trade practices will disqualify vendors and contractors from current and future consideration for participation in TSTC orders and contracts.

1.23 Drug Policy

TSTC is a drug-free workforce and workplace. The manufacture, sale, distribution, dispensation, or use of illegal drugs or alcohol by vendors or contractors, while on TSTC premises, is strictly prohibited.

To be a proper invoice that may be accepted and paid, the invoice must include the following information and/or attachments; Name and address of the Respondent, Respondent's invoice remittance address, Purchase order number authorizing the services, detailed breakdown of monthly total price for services, and any other related documentation to show proof of services rendered.

Invoices should be received no later than the (15) fifteenth day of every month. Each invoice is subject to review and approval by TSTC before payment will be processed. Normal payment processing time for services which have been completed, delivered to, and approved by TSTC is thirty (30) calendar days after receipt of a valid, uncontested invoice. TSTC will incur no penalty for late payment if payment is made in thirty (30) or fewer days from receipt of goods or services and an uncontested invoice. Payments shall be made consistent with Chapter 2251, Texas Government Code.

Any invoice that does not comply with the minimum requirements stated above may not be considered valid and may be subject to rejection and/or return to the contractor.

Invoices shall be submitted by mail to:
Texas State Technical College
Accounts Payable
1902 N. Loop 499
Harlingen, Texas 78550

1.25 Confidential Information

All information owned, possessed or used by TSTC that is communicated to, learned, developed or otherwise acquired by contractor in the performance of services for TSTC, that is not generally known to the public, will be confidential and contractor will not, beginning on the date of first association or communication between TSTC and contractor and continuing throughout the term of the contract and

any time thereafter, disclose, communicate or divulge, or permit disclosure, communication or divulgence, to another or use for contractor's own benefit or the benefit of another, any confidential information, unless required by law.

Except when defined as part of the Services, contractor will not make any press releases, public statements, or advertisement referring to the Services or the engagement of contractor as an independent contractor of TSTC in connection with the Services, or release any information relative to the Services for publication, advertisement or any other purpose without the prior written approval of TSTC. Contractor will obtain assurances similar to those contained in this Section from persons, contractors, and subcontractors retained by contractor.

1.26 Governing Law

The contract and all of the rights and obligations of the parties hereto and all of the terms and conditions hereof will be construed, interpreted and applied in accordance with and governed by and enforced under the laws of the State of Texas.

1.27 Group Purchasing Authority

Texas law authorizes institutions of higher education (defined by [Section 61.003, Education Code](#)) to use the group purchasing procurement method ([Texas Education Code 51.9335](#)). Additional Texas institutions of higher education may therefore elect to enter into a contract with the successful Proposer under this RFP. In particular, Proposer should note that Texas State Technical College is comprised of several campuses across the state of Texas described at <http://www.tstc.edu/about/welcome>. TSTC may routinely evaluate whether a contract resulting from a procurement conducted by one of the campuses might be suitable for use by another, and if so, this could give rise to additional purchase volumes. As a result, in submitting its proposal in response to this RFP, Proposer should consider proposing pricing and other commercial terms that take into account such higher volumes and other expanded opportunities that could result from the eventual inclusion of other institutions in the purchase contemplated by this RFP.

Question: This procurement is to acquire training services in *mechanical and electrical training*, on an “as needed” basis *dependent on successful grant awards from the Texas Workforce Commission*, including but are not limited to:

Answer: This procurement is to acquire training services in **work at heights, safety and rescue**, on mechanical and electrical training on an “as needed” basis *dependent on successful grant awards from the Texas Workforce Commission*, or an executed Training Agreement between TSTC and the sponsoring company for cash training, including but are not limited to:

Clarification for Page 5 (Proposal and any other information submitted by respondents in response to this RFP shall become the property of TSTC) and

Clarification on Page 11 last bullet (Proposals must include a description of training notifications/invitations. Proposals should also include a description of training materials that will be offered such as pre and post testing options, embedded videos or other multi-media, audio instructions and guided tutorials along with downloadable hard copies.)

Answer: In response to your inquiry about intellectual property/proprietary property from 3rd party vendors, the answer is NO. We do not take ownership of the curriculum, power points, handouts, etc.

What we do require is a course description along with learning objectives in a bullet list. This is part of the grant application process and cannot be avoided. Also, if there are handouts used during class, we need copies of those as well.

Once the grant is completed, we store this information for 7 years after which it is destroyed. We do this in case we have an audit as well as to meet SACS requirements.

However, we do not share this information with any other organization and certainly NOT with the entire state of Texas.

The only time we are required to share information with other agencies, such as the Texas Workforce Commission, is when TSTC, TEEX or community colleges develop customized curriculum that is used for a SDF grant. In the case of training vendors, this is not the case.

Also attached is our insurance requirements that pertain to Attachment B, Letter F, number 5.
